Hysan Supports the Government in Successfully Launching the Satellite Community Vaccination Centre

Hysan Development is proud to be Hong Kong's first in the real estate sector to support the Hong Kong government in setting up a Satellite Community Vaccination Centre within a private property portfolio. The SCVC began its operations today (Friday, February 11) at Leighton Centre's 7th floor. There is also a COVID-19 Vaccination Resource Centre at the ground level of the same venue.

"We strongly support the Government's push to promote vaccination in Hong Kong, and this is an example of a successful public-private partnership where the strength of both sectors shines through," says Ms. Irene Lee, Hysan Development's Chairman. "We want to see as many people as possible getting vaccinated in Hong Kong for the city to come back to its normal vibrancy again," says Ms Lee.

"For Hysan, we have long been communicating the message of vaccination's importance with our own colleagues. They appreciate why vaccination is crucial and 99% of our staff members have received two doses. Most are again ready for or have already taken the third dose."

"Our support this time is, in fact, our latest public push on the vaccination message as we had partnered with Adventist Hospital and Po Leung Kuk in 2021 to provide health checks for the underprivileged in preparation for vaccination. We know this is the right thing to do and we will continue to do our utmost to support the cause."
