For immediate release**Hysan Partners Hong Kong Government Again to Expand Vaccination Centre Within Portfolio**

With the fifth Covid-19 wave hitting Hong Kong hard, Hysan Development took the initiative to become the first in the real estate sector to support the Hong Kong Government in setting up a Community Vaccination Centre (CVC) in a private property portfolio back in February.

Vaccination is key for the community to ride out the pandemic. At this critical moment in the fight against the pandemic, Hysan has strengthened its cooperation with the Hong Kong Government to expand its Community Vaccination Centre on the 7th floor of Leighton Centre to the 6th floor. The newly added floor will provide Comirnaty (BioNTech) vaccination service for people aged 12 or above and accept group appointments for school-aged children.

Mr. Ricky Lui, Hysan's Executive Director and Chief Operating Officer, said, "As a company rooted in Hong Kong, Hysan hopes to overcome the pandemic as soon as possible together with the community. We are proud to take another step with the Government to fight the virus and getting as many in the population as possible to be vaccinated is the community's top priority. Our good partnership with the Civil Service Bureau and other government departments have ensured Leighton Centre's first CVC operates smoothly and effectively. By expanding the facility, we hope to make vaccination for the public as convenient as possible. We will continue to work hard and contribute more to help with the cause."

For more information about the operation details of this Community Vaccination Centre, please refer to the Hong Kong Government's press release
