**Hysan Announces Allocation of HK\$5 Million Donation  
Provides 1,000 New Laptops for Residents Affected by Tai Po Wang Fuk Court Fire  
Offers Targeted Support to Residents in Rebuilding their Lives**

**Hysan Development Company Limited** (“Hysan”) cares about the residents affected by the fire at Wang Fuk Court in Tai Po, which has caused immense hardship. Understanding the tremendous pressure the affected residents face as they work to rebuild their lives, Hysan is committed to providing appropriate support during this challenging period.

Following its earlier announcement of a HK\$5 million donation to support the affected residents, Hysan has engaged in discussions with community organisations to understand the urgent needs of the residents. It is realised that many of the residents lost their laptops in the fire incident, significantly disrupting their study, work, and daily routines. In direct response to this pressing need, Hysan announces the allocation of its donation towards providing 1,000 new laptops for the affected residents, assisting them in rebuilding their lives.

The initiative is made possible through the steadfast support of Lenovo Hong Kong, which has offered the new laptops at a preferential rate to Hysan, maximising resources to benefit more impacted residents. Hysan extends its heartfelt gratitude to Lenovo Hong Kong for its professional partnership and commitment to relief measures, exemplifying the spirit of corporate collaboration.

To ensure the laptops are properly delivered to those in need, Hysan expresses appreciation for its long-term community partner, Po Leung Kuk, for its unwavering dedication. Working together, Po Leung Kuk leverages its community network to support in coordination and allocation of the laptops.

A dedicated support hotline is established to provide technical assistance and follow-up services.

As a member of our society, we are committed to contributing our care and efforts, uniting collective resources and standing in solidarity with society. We hope that all those impacted will overcome these challenging moments as soon as possible.
